EXPERIENCE

Kreeyaa Technologies (Qualifyde)

Senior Software Engineer Nov 2024 - Present, Hyderabad, India

- Spearheaded the development of the client-side architecture from the ground up, ensuring scalability and performance optimization.
- Led a team of developers, fostering a collaborative environment and providing hands-on training to enhance their technical and professional skills.
- Collaborated closely with business and sales teams to design and deliver innovative, customer-centric solutions that drive revenue and client satisfaction.
- Contributed to the development of mobile applications and AI development, leveraging cross-platform technologies for seamless user experiences.
- Streamlined web application/mobile application performance and scalability by efficiently managing AWS infrastructure, including deployment pipelines and cloud resource optimization.

Triotech (Sub-branch of TechnoTask)

Technology Consultant Mar 2026 - present, Bhopal, India

- Guided the development team for Xeny, a voice calling bot for BPO operations, advising on architecture, AI integration, and deployment strategies.
- Worked on Convoze, an AI-powered post-call analytics platform that analyzes recorded agent conversations to evaluate performance and surface actionable improvement insights.
- Served a key client, mPocket, delivering tailored voice-AI and analytics solutions to enhance BPO agent quality and operational efficiency.
- Assisted in the development of in-house internal tools, streamlining operational workflows and improving overall team productivity.

Tryidol

Consultant Jan 2025 - Aug 2025, Remote, India

- Worked on a civil-engineering ERP solution, streamlining project tracking, resource allocation, and reporting for construction clients.
- Developed features for a multi-level marketing (MLM) platform, handling commission structures, downline management, and real-time dashboards.
- Assisted in client acquisition by providing technical assistance during pre-sales demos and calls, translating business requirements into feasible technical solutions.

Aerosimple

Software Engineer Aug 2023 - Oct 2024, Vizag, India

- Directed a team of developers to architect and implement software solutions tailored to meet complex client requirements.
- Engineered responsive and intuitive web interfaces using React.js, aligning with modern UI/UX best practices.
- Partnered with UI/UX designers to translate wireframes and mock-ups into dynamic, production-ready web applications.

SUMMARY

I'm a passionate Software Engineer with 3+ years of experience specializing in client-side front-end development. With a strong sense of ownership and attention to detail, I am dedicated to delivering high-quality, responsive, and user-friendly web applications. My expertise lies in building intuitive interfaces that meet both user needs and business goals, ensuring performance, scalability, and maintainability in every project.

COMPETENCIES

Languages	Python, JavaScript, Data Structures and Algorithm.
Front End	HTML, CSS, JavaScript, React, Tailwind.
Mobile	Ionic and React Native.
Back End	FastAPI, Node, Express, Sequelize, MongoDB
DBMS	SQL, NoSQL
DevOps	Version Control, AWS
AI	Lang Chain, OpenAI, GenAI, LLMs, ML/DL/CV.

EDUCATION

NRI Institute Of Information Science and Technology Bhopal, India

B.Tech - Computer Science

GPA: 8.6/10.00

PARTICIPATIONS

HackerRank

Star: 5

CodeKaze by Coding Ninjas

Rank: 764

LANGUAGES

- Hindi (Native)
- English (Advanced)

- Developed robust RESTful APIs, integrating seamlessly with front-end frameworks to deliver end-to-end functionality.
- Maintained high code quality by implementing automated unit testing, code reviews, and version control best practices using Git.

PROJECTS

Qualifyde Overall Job Solutions (Currently Working).....

elopng an innovative job solution tailored for blue-collar workers using AI. The platform features multi-language support and a unique capability to create video job descriptions from plain text, which can be translated into multiple languages. This cutting-edge solution enhances accessibility and efficiency in job recruitment. Checkout here: <http://jobs.qualifyde.com>

Aerosimple: Airport Management Software.....

ineered a comprehensive airport management solution used by 100+ airports worldwide, including top-tier airports like Washington Dulles International and Denver International. The platform digitizes airport workflows, streamlining operations and enhancing overall efficiency for airport management teams. Checkout here: <https://us.aerosimple.com>

Triotech: Xeny (Voice Calling Bot for BPO).....

eloped a voice-calling bot for BPO operations, providing AI-driven architecture advice, integration strategies, and deployment guidance to optimise outbound and inbound call workflows. Checkout here: <https://xeny.example.com>
